

From ROVAC survey

Stats on Election Of Registrars:

Towns with 2 year terms elected even years	92
Towns with 4 year terms	74
4 yr. terms Elected with Gov.	22
4 yr. terms Elected with Pres.	52
Towns unknown @ time of survey	2
Town appoints (New London)	1

Currently approximately 43% are elected to 4 yr. terms and 54% are elected to 2 yr. terms

Currently 144 towns elect Registrars the year of the Presidential election.

Currently 114 towns elect Registrars the year of the Gubernatorial election.

ROVAC's proposal for all 4 yr terms to be elected the "presidential" year would create consistency throughout the state, allow for better planned training, allow for more advanced training, and every Registrar would experience a Presidential election having 3 yr's experience to rely on. It would also take Registrars off the ballot and out of the campaign for three consecutive elections. Currently, there are many new Registrars every 2 years.
